

**STATEMENT OF INVESTMENT POLICY
SOUTHERN ILLINOIS UNIVERSITY
BOARD OF TRUSTEES**

I. STATEMENT OF OBJECTIVES

It is the policy of Southern Illinois University to invest funds in a manner which will provide investment returns and security consistent with good business practices, while meeting the daily cash flow demands of the University, and conforming to all statutes governing the investments of funds. Funds of Southern Illinois University will be invested in accordance with the provisions of the Illinois Compiled Statutes, Chapter 30, Sections 235/0.01 - 235/8, "The Public Funds Investment Act", the Policies of the Board of Trustees of Southern Illinois University, and covenants provided from the University's bond and Certificate of Participation issuance activities.

As provided in Illinois Compiled Statutes, Chapter 30, Sections 225 "The Public Funds Deposit Act," public funds of the University will be deposited in savings and loan associations, savings bank, or State or national banks in Illinois.

A. Overall Risk Profile

The three basic objectives of Southern Illinois University's Investment Program are:

1. Safety of invested funds;
2. Maintenance of sufficient liquidity to meet cash flow needs;
3. Attainment of the maximum investment returns possible consistent with the first two objectives.

The achievement of these objectives shall be accomplished in the manner described below:

1. Safety of Invested Funds

The University will insure the safety of its invested funds by limiting credit and interest rate risks. Credit risk is the risk of loss due to the failure of the security issuer or backer to meet promised interest or principal payments on required dates. Interest rate risk is the risk that the market value of portfolio securities will fall or rise due to changes in general interest rates. The physical security of the University's investments is also an important element of safety. Detailed safekeeping requirements are defined in Section IV of this policy.

- a. Credit risk will be mitigated by:
 - i) Limiting investments to those specified in the Illinois Public Funds Investment Act, which prohibits investment in corporate bonds with maturity dates longer than 3 years from the date of purchase;
 - ii) iii) Diversifying the investment portfolio so that the failure of any one issue or backer will not place an undue financial burden on the University.
- b. Interest rate risk will be mitigated by:
 - i) Maintaining significant balances in cash equivalent and other short maturity investments as changing interest rates have limited impact on these securities' prices;
 - ii) Establishing maturity diversification that is consistent with the expected cash flows of the University.

2. Liquidity

The University's investment portfolio will be structured in such a manner that securities mature at the same time as cash is needed to meet anticipated demands. Additionally, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets.

3. Investment Returns

Investment returns on the University's investment portfolio is a priority after the safety and liquidity objectives described above. Investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

B. Maturity Diversification

The University's investment portfolio will be structured to provide that sufficient funds from investments are available every month to meet the University's anticipated cash needs. Subject to the safety provisions outlined above, the choice in investment instruments and maturities will be based upon an analysis of anticipated cash needs, existing and anticipated revenues, interest rate trends, and specific market opportunities.

The University's funds (excluding debt financing funds) will generally be invested in accordance with the following maturity ranges:

Portfolio	Approximate Average Maturity Range
Cash & Cash Equivalents	Less than one year; typically less than 30 days
Short Term	Up to 3 years;
Intermediate Term	Up to 10 years

C. Definition of Funds

Funds for the purpose of this policy are all University funds which are available for investment at any one time. Funds include those in the University's general operation and debt financing activities.

D. Prudence

Investments shall be made with judgement and care - under circumstances then prevailing - which persons of prudence, discretion and intelligence exercise in management of their own affairs, not for speculation but for investment, considering the probable safety of their own capital as well as the probable income to be derived.

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio.

II. INVESTMENTS

This section of the Investment Policy identifies the types of instruments in which the University may invest its funds.

A. Eligible Securities

The Illinois Trust local government investment pools.

B. Diversification

Southern Illinois University will diversify its investments by security type, issue and maturity in order to reduce overall portfolio risks while striving to meet or exceed the benchmark average rate of return. Obligations of the United States of America, its agencies, and its instrumentalities are eligible without limit. No more than one-third of Southern Illinois University's funds may be invested in obligations of corporations.

The collateral for various investments shall be held by third parties or in a separate trust department of a participating bank. The collateralization level must be in an amount equal to at least market value of that amount of funds deposited exceeding the insurance limitation provided by the Federal Deposit Insurance Corporation or the National Credit Union Administration or other approved share insurers.

D. Release of Collateral

Only the Treasurer and his designees shall be authorized to release securities pledged as collateral. All requests for the release of collateral shall be confirmed in writing.

E. Confirmation

These are minimum information requirements.

III. SELECTION OF INVESTMENT ADVISORS, INVESTMENT MANAGERS, AND FINANCIAL INSTITUTIONS

The University will follow the State's Procurement Policy when issuing public Requests For Proposal in selecting its advisors and managers.

B. Qualification of Brokers, Dealers, and Financial Institutions

The University will only transact business with banks, savings and loan associations, and broker dealers who have been approved by the University.

If the University hires an investment advisor to provide investment management services, and the investment advisor maintains a list of approved Broker/Dealers that is adhered to for investment transactions, the University may adopt that Investment Advisor's list as it may be amended periodically.

IV. INTERNAL CONTROL PROCEDURES

A. Purchase of Securities

The Treasurer will delegate authorization to purchase investment securities to employees, as needed. A list of these authorized employees will be provided to each investment broker/dealer. A confirmation of the purchase of authorized securities will be provided to the Treasurer. All security transactions will be conducted "delivery versus payment."

On occasion, there will be a need for the Treasurer to delegate authorization to a third party to purchase securities on behalf of the University. In these instances, a one-time delegation will be executed that clearly states the type of security, the amount to be purchased, the maturity date, and the purchase date.

B. Safekeeping of Assets

All securities (except collateral) owned by the University will be held by its safekeeping agents. The University will contract with a bank or banks for the safekeeping of securities which are owned by the University as a part of its investment portfolio or which have been transferred to the University under the terms of any repurchase agreements. Safekeeping reports shall be provided.

When transferring funds to an account using a non-repetitive wire or a non-preformatted ACH transfer, the bank is required to call back a second pre-established employee for confirmation that the transfer is authorized.
