EXPORT CONTROL ARTICLES

SANCTIONS BY THE NUMBERS: 2024 YEAR IN REVIEW

In 2024, the United States issued an unprecedented number of financial sanctions and entity-based export controls. This installment of Sanctions by the Numbers examines the United States' use of financial sanctions—through the Treasury Department's Specially Designated Nationals and Blocked Persons (SDN) List—and entity-based export controls—via the Commerce Department's Entity List—in 2024.

LEADER OF EXPORT CONTROL EVASION SCHEME SENTENCED TO 70 MONTHS IN PRISON

Oleg Sergeyevich Patsulya, a Russian national, was sentenced to 70 months, or nearly six years, in prison for his role in a conspiracy to export controlled aviation technology to Russia and to launder money in connection with the illegal export scheme. In December 2024, Patsulya's co-conspirator, Russian national Vasilii Sergeyevich Besedin, was sentenced to two years in prison for his role in the scheme.

INTERNATIONAL SHIPPING

SIU's international shipping must comply with export control laws and regulations, which may require SIU to obtain an export license for shipments of tangible items outside of the U.S.

All SIU personnel who engage in international shipping are responsible for ensuring compliance with U.S. export control laws and regulations. Shipping without obtaining the appropriate license or other government approval, or failing to file accurate export or shipping documentation, may result in confiscation of the shipped items, fines and/or other penalties.

The International Shipping guidance can assist you in taking the proper action BEFORE exporting an item. The Export Controls Office can assist you in evaluating if a license is required and if so, in obtaining the license.

"TALENT PROGRAM" FAQs

What is a foreign "TALENTS" program?

Any foreign state sponsored attempt to acquire U.S.-funded scientific research through recruitment programs that target scientists, engineers, academics, researchers, and entrepreneurs of all nationalities working or educated in the United States.

These recruitment programs are often part of broader whole-of-government strategies to reduce costs associated with basic research while focusing investment on military development or dominance in emerging technology sectors. The Department of Energy issued an order on 7 July 2019 with fairly clear explanations of Talents programs [DOE O 486.1](#).

How does this affect SIU and me?

Association with a Talents Program can lead to ineligibility to receive Federal funding for your research. Currently there is no due process to challenge such a determination or limit to the time interval over which it is imposed. Past associations may also be concerning to the US Government.

CHINA DEFENSE UNIVERSITIES TRACKER

The Tracker is a tool created by ASPI's International Cyber Policy Centre to inform universities, governments and scholars as they engage with the entities from the People's Republic of China. It aims to build understanding of the expansion of military-civil fusion—the Chinese government's policy of integrating military and civilian efforts—into the education sector. The Tracker should be used to inform due diligence of Chinese institutions.

EQUIPMENT USED IN RESEARCH

If you use the following equipment/goods in your research or the below is your area of research, please call the Director of Export Controls at 618-650-2476.

Television systems (camera, lights, monitoring and signal transmission equipment), remote operation with submersible vehicle8A992.a.1

Tellurium (Te)..... 6C002.a

Tempest type equipment.....5A003.b

Tension stretchers for prepregs/preform production1B101.d

Terminal interface equipment.....4A994.i

Terrestrial, marine acoustic equipment.....6A991

Terrestrial equipment, specially designed for spacecraft.....9A515

Teschen disease virus (Porcine Teschovirus) 1C351.a.38

Test benches/stands, for rockets/motors/rocket engines.....9B117

Test, calibration or alignment equipment for equipment controlled by 7A.....7B001

Test equipment - propellants and their constituents1B115

Test equipment - specially designed for testing finished or unfinished semiconductor devices.....3B002

SIU CLEAN LAPTOP PROGRAM

All SIU travel to the below countries WILL REQUIRE that an Informational Technology Services clean laptop be used during SIU business travel to those countries. Your SIU issued laptop computer SHALL NOT be transported to any of the below countries.

Iran	Russia	Sudan	Belarus
Syria	China	Cuba	North Korea
Cambodia	Venezuela	Ukraine (Crimea Region)	

U.S. EXPORT CONTROL REGULATIONS

- EXPORT ADMINISTRATION REGULATIONS (EAR) by the U.S. Department of Commerce Bureau of Industry and Security (BIS)
- INTERNATIONAL TRAFFIC IN ARMS REGULATIONS (ITAR) by the U.S. Department of State Directorate of Defense Trade Controls (DDTC)
- FOREIGN ASSETS CONTROL REGULATIONS (FACR) by the U.S. Department of Treasury Office of Foreign Assets Control (OFAC)
