JUSTICE DEPARTMENT DECLINES PROSECUTION OF COMPANY THAT SELF-DISCLOSED EXPORT CONTROL OFFENSES COMMITTED BY EMPLOYEE

Company's Prompt Self-Disclosure and Extraordinary Cooperation Led to Employee's Successful Prosecution for Unlawfully Exporting Software to a Restricted Chinese University

INTERNATIONAL TRAVEL REGISTRY REQUIREMENT

At the April 2025 Board of Trustees meeting, the Board approved an International Travel Registration Policy to describe responsibilities of SIU-S and all of its international travelers and established processes to help ensure that legal and safety risks associated with university-related international travel are identified, acknowledged, and managed appropriately.

All Individuals in the SIU-S community traveling abroad as part of SIU-S Related Travel will be required to enter their travel information into the Terra Dotta International Travel Registry thirty (30) days before they depart.

Procedures for registering international travel can be found on the Export Controls website.

Login to the appropriate travel registry using your SIU Network login:

"TALENT PROGRAM" FAQs

What is a foreign "TALENTS" program?

Any foreign state sponsored attempt to acquire U.S.-funded scientific research through recruitment programs that target scientists, engineers, academics, researchers, and entrepreneurs of all nationalities working or educated in the United States.

These recruitment programs are often part of broader whole-of-government strategies to reduce costs associated with basic research while focusing investment on military development or dominance in emerging technology sectors. The Department of Energy issued an order on 7 July 2019 with fairly clear explanations of Talents programs [DOE O 486.1](#).

How does this affect SIU and me?

Association with a Talents Program can lead to ineligibility to receive Federal funding for your research. Currently there is no due process to challenge such a determination or limit to the time interval over which it is imposed. Past associations may also be concerning to the US Government.

CHINA DEFENSE UNIVERSITIES TRACKER

The Tracker is a tool created by ASPI's International Cyber Policy Centre to inform universities, governments and scholars as they engage with the entities from the People's Republic of China. It aims to build understanding of the expansion of military-civil fusion—the Chinese government's policy of integrating military and civilian efforts—into the education sector. The Tracker should be used to inform due diligence of Chinese institutions.
