MEXICO TRAVEL ADVISORY

A Mexico Travel Advisory was reissued on August 17, 2022, after periodic review with updates to the Risk Indicators, state Travel Advisory Levels, and U.S. government restrictions on personnel.

U.S. citizens are advised to adhere to restrictions on U.S. government employee travel.

COMMERCE ANNOUNCES ADDITION OF 7 CHINESE TECH INSTITUTIONS TO ENTITY LIST

The Department of Commerce has added to its Entity List seven Chinese space, aerospace and other technology institutions for their attempts to acquire U.S.-made products in support of the East Asian country's military modernization efforts.

The department's bureau of industry and security said it will restrict the access of these seven entities to software and other commodities subject to the Export Administration Regulations under a final rule to take effect on August, 24, 2022.

INTERNATIONAL TRAVEL TO HIGH RISK COUNTRIES

The SIU Export Controls website includes information about [international travel](#). Within the International Travel page, it further includes an [International Travel Tips for High-Risk Countries](#) guidance document. These tips are broken down into tips for what you can do prior to travel, during travel, and upon return to the United States.

The SIU International Travel Tips also includes a link to the [Travel to High-Risk Areas](#) guidance provided by the U.S. Department of State - Bureau of Consular Affairs.

If you plan to travel to a high risk area, please make sure to utilize these resources to ensure you have a safe trip that adheres to all regulations.

Additionally, always remember to contact the Export Controls office before any international travel.

"TALENT PROGRAM" FAQs

What is a foreign "TALENTS" program?

Any foreign state sponsored attempt to acquire U.S.-funded scientific research through recruitment programs that target scientists, engineers, academics, researchers, and entrepreneurs of all nationalities working or educated in the United States.

These recruitment programs are often part of broader whole-of-government strategies to reduce costs associated with basic research while focusing investment on military development or dominance in emerging technology sectors. The Department of Energy issued an order on 7 July 2019 with fairly clear explanations of Talents programs [DOE O 486.1](#).

How does this affect SIU and me?

Association with a Talents Program can lead to ineligibility to receive Federal funding for your research. Currently there is no due process to challenge such a determination or limit to the time interval over which it is imposed. Past associations may also be concerning to the US Government.

CHINA DEFENSE UNIVERSITIES TRACKER

The Tracker is a tool created by ASPI's International Cyber Policy Centre to inform universities, governments and scholars as they engage with the entities from the People's Republic of China. It aims to build understanding of the expansion of military-civil fusion—the Chinese government's policy of integrating military and civilian efforts—into the education sector. The Tracker should be used to inform due diligence of Chinese institutions.

EQUIPMENT USED IN RESEARCH

If you use the following equipment/goods in your research or the below is your area of research, please call the Director of Export Controls at 618-650-2476.

Rotor forming mandrels, precision	2B209.b
Rotor straightening equipment or systems	2B228.b
Routers, telecommunications	5A991.c.10
Ruby lasers	6A995.c
Russian Spring-Summer encephalitis virus (Tick-borne encephalitis virus)	1C351.a.52
S-parameter test/measurement equipment	3B002.a
S20 and S25 photocathodes	6A002
Sabia virus	1C351.a.44
Safety cabinets, capable of biological use	2B352.f.2
Saint Louis (St. Louis) encephalitis virus	1C351.a.49
Salmonella enterica subspecies enterica serovar Typhi (Salmonella typhi)	1C351.c.18
Salvage systems, ocean	8A001.e
Saps	0A978
SARS-related coronavirus (SARS-CoV)	1C351.a.46
